New Product Development

Given proven results in various fields, by working in a garage lab. without any facilities, Including Diabetes and Asthma.

I Hope to give breakthroughs in the following major Secretion of normal Insulin in Diabetes 1 and 2, Cancer, Leprosy, Psoriasis, and Asthma

I can design new products for your problems.

Products 1 to 7 Newly developed, produced and sold for 20 years by me under my AVP & CO.

1) Formulated High Temp Adhesive (HTA) for SO₂ plants, at High Temp of 1200 C to protect Acidic corrosion at high Temp sold to M/s Satwick Electric Co Nasik in 72 sugar factories extending life to 18 months instead of 3 months. Also sold for other similar applications through to Companies, VIZ, MICO, Rayon Industries ISRO etc.

2) Formulated Instant Electroless copper plating solution for Piston rings of Victor gasket

3) "NO CARB" Paste for heat treatment application, an Import Substitution of USA,

4) Canopy Polishing Paste for MIGs Aircraft, an Import substitution of Russia for HAL, **For want of this product MIGs were grounded, this product enabled MIGs to fly for 6 years**

5) WRP. a simple and do it yourself Water Proofing solution.

6) Mosquito Repellent solution a hundred % herbal formulation. sold on mass scale, works even if doors and windows kept open

7) Changing PSA adhesive to Non residual one, for Export quality bags of VIP . Co.

We were offered a **Distributorship from LOCTITE, for 100 Sugar Factories and 6 Districts of Maharashtra, gave always all India highest sale.**

Further Product Development

Products 1 To 7 needs Sponsorship

1) Washing Machine-- Concept For Indian conditions

- 2) Dish washer New concept
- 3) Chapati Machine trial taken
- 4) Anti skidding for Cars new concept *
- 5) Canning Coconut Water under trial
- 6) Bundi ladu a New concept
- 7) Coconut breaking and storing water- for mass scale use in Yatras ,and Temples Needs

I Have working prototypes/solutions, for most of the following products designed by me.

I have 6 patents, 3 in USA and 3 in India, I write my own patent

- 1) Staple Remover got Patent in USA
- 2) **Adhesive Tape Dispenser—Utility Patent issued No. 8839838 USA**
- 3) Adhesive tape Dispenser- **Patent pending in India**
- 4) **Seed Drill patent was given on license basis to Kirloskar**
- 5) Common frame for all ploughs, **Patent taken In India for Kirloskar**
- 6) Tube squeezer for, patent is pending in USA
- 7) Import substitution of an American product “No carb Paste” for Heat treatment
- 8) **Import Substitution of a Russian product for HAL India“ Canopy polishing Paste”**

Kept MIGS Aircraft in air for 6 years.

- 9) **Made Power Tiller on 3.5 hp for attaching a plough of size 12x12 inch, Successful**

Demo seen by all MDs of Kirloskar group, at Kirloskar Engine Ltd. Pune .Most challenging innovation

- 10) HTA powder developed for **protection of the plant at 1200 C. from Acidic corrosion for So2 Plant** sold in 72 sugar factories. Raising its life from 3 months to 18 months, and for other similar applications.

- 11) **Reverse Light for Vehicheles**, to stop accidents, placed on my car with good results
- 12) Instant elctroless Copper plating of 3 microns, for piston rings of Victor Gasket CO.
- 13) **Coconut breaking equipment for Temples and Yatras.**
- 14) **Thief proof wallet.**

- 15) “Chakaki” **Multipurpose Polish** for copper, Silver, Brass , Aluminum, and any surfaces.+ for cleaning utensils and removing dirt from Shirt Collars, can be used in Dish washer, Silver do not get tarnished Label.
- 16) **Liquid to remove wart** – my wife had this, so done research and got rid.
- 17) **A 100% herbal Mosquito Repellent** “Get Rid” Now “Texomos” - produced and sold on large scale, can keep open doors and windows for 4 to 5 hours.
- 18) **Toilet Design- for rural Area taken up at Pandharpur. India**
- 19) Filter Mask for general use and for Swine Flu- cost Rs 10
- 20) Asthma-Done experiment on myself and got cured, used by many
- 21) Good Adhesives which is water proof ,a replacement product
- 22) **Scrubber, Hygienic and Biodegradable—works at high Temp , donated to a blind org, and they are producing and selling well**
- 23) **New type of Plastic bag Sealer-** at low cost
- 24) Spray solution for Bed Bugs, very effective.
- 25)**Leafy vegetable cutter—There is no equipment available in market like this to cut.**
- 26) Seeding for clouds for getting Rain a new Concept to be tested
- 27) LED Lights, **without switch**, ----- cost effective - productionr Rural area
- 28) **Reverse Light for Cars/Vehicles** to stop accidents
- 29) Bird Scare- brought from USA useful for farmers
- 30) Herbal **Tooth** Powder made and sold.
- 31) Repellent stick for snake Needs trial
- 32) Tagging machine for Labels.
- 33) On spot Portable Saline equipment for accident and for patients in remote area
- 34) **Cooler house in summer at no cost**, using for every summer, Good for poor

- 35) New design of Lemon squeezer
- 36) Non skidding Footwear to use in Bathroom or on slippery places, like snow or on icy roads etc. one can rub on ice
- 37) Level finder for Burshen Gas
- 38) Shaving cream which makes hair softer for shave. Low cost product.
- 39) A new Paper shredding machine
- 40) Attachment for shaving stick for proper angle and smooth shaving.
- 41) Simple but Miniature grinder for minute quantity of grains/material
- 43) Mobile charger for remote places
- 42) Smooth salt flow from bottle
- 43) Medicine for piles
- 44) Turning PSA adhesive to non residual adhesive
- 45) Gadget for removing paints, found 4 times less costly in test
- 46) Key chain with light
- 47) Vibratory door Bell for old and deaf and dumb people
- 48) **A scheme prepared for 20 KV Gen set for villagers for Irrigation**, light and storing of water Used in Bihar. India
- 49) Tube Squeezer for any tubes *50) Preserving coconut water for sale

-- Detail Literature can be sent on request all detail points and stages of Developments of the product can be discussed in person. We need help from a producer/Sponsors/Venture Capitalist who can manufacture and sale these products on Mass Scale, preferably by PVT. Ltd or Public Ltd. Companies, as the market is big for each product and have export possibilities. These products will create new Industries with our team work.

I will also help in promoting market for these products to a great extent if required. I am now 87 and hence this request.
